FENCING THAT'S AHEAD OF THE CURVE

Our VERSAI™ ornamental steel fencing line is easily rackable to suit grade changes in aggressive landscapes. While the rigidity of a traditional welded fence requires stair-stepping of panels on hills and slopes, a rackable fence adjusts to follow the curve of the landscape.

KEY FEATURES

- Easy rackability adjusts to grade changes in the landscape
- Patented pin-hinge technology eliminates metal on metal which can cause fatigue and rust
- Rackable design easily adjusts 48" on an 8' panel to match terrain
- Patented* hidden pin-hinge system means no visible fasteners
- Available styles include flat top / flat bottom flat top, extended picket, pressed spear, extended picket / flat bottom, pressed spear / flat bottom and pool panels
- Add style with finials, knuckles, rings and ball caps
- Perfectly smooth rail as a result of the pin-hinge technology
- Virtually maintenance-free, thanks to the E-coat and architectural grade powder coat
- Simple bracket design speeds installation, which reduces labor cost
- True 5/8" picket size, no scant sizing like our competitors
- Optional Assurance panels feature a 3" air space for increased safety where young children or pets play
- Peace of mind with a FortressShield 20-year warranty
- *US Patent No. 8899555
Canadian Patent No. 2698715
Australian Patent No. 2008296065
